Air Conditioning and Heating Maintenance

Experts know that proper routine maintenance of your air conditioning and heating equipment is the key to having a more efficient, economical and dependable system for years to come. Proper maintenance can effectively double the lifespan of the average residential heating and cooling system. In addition, many health risks associated with poor air quality can be greatly reduced or eliminated with proper system maintenance. Maintaining your residential system requires a professional.

Peace of Mind Maintenance Plan

- Save on utility bills.
- Your heater and/or air conditioner will each be serviced once a year to make sure it is functioning properly and your filters will be changed at this time (standard filters included).
- Spot small issues that could become bigger problems.
- There will be a 10% price reduction for all parts and labor if a repair is needed.
- Reduced Service Charges during normal hours, overtime hours and holidays.
- Priority Service.

Terms & Conditions

- The Term of the Contract is One Year.
- The Contract is not a guarantee against equipment failure.
- The Contract is non-refundable, but may be transferred to a new owner/occupant.
- The Contract is not an extended warranty program.
- The Contract is not a duct cleaning service.
